Total Number of Children Currently Awaiting Adoption

Madison Adoption Associates specializes in the placement of waiting children from the countries we work in. Madison has active programs in Bulgaria, Colombia, Dominican Republic, Ecuador, Hong Kong, the Philippines, and Thailand. Madison has a China program but it is not currently open.

Although Madison Adoption Associates does not have any exclusive referrals of waiting children in any of our programs, we devote a significant amount of time and resources to advocacy and child specific recruitment. Our agency will advocate to find families for legally free waiting children who are available for placement by agencies accredited to work in that country.
